## AN UPWARD TENDENCY

Marked the Operations on the New York Exchange Yesterday.

Evidence that Sugar Is Being Manipulated to Influence Legislation-Indianapolis Grain in a Rut.

At New York yesterday money on call was easy at 101% per cent, the last loan being at 1, closing at 1 per cent.

Prime mercantile paper, 31/2051/2. Sterling exchange was dull, actual business in bankers' bills at \$4.87@4.87% for demand and \$4.844@4.844 for sixty days; posted rates, \$4.871/2@4.881/2; commercial bills,

\$4.83@4.83%. Silver certificates 69%c bid. Bar silver

closed at 69%c per ounce; at London, 32d. Total sales on New York Stock Exchange amounted to 148,900 shares. There was a slight increase in the dealings on the Stock Exchange yesterday, which was entirely due to purchases for the London account, some 15,000 shares being purchased by the arbitrage houses, including St. Paul, Erie, Louisville & Nashville, Union Pacific, Kansas & Texas preferred and Denver & Rio Grande preferred. A very active buying movement was developed in General Electric, which was accompanied by rumors of the formation of a pool to acquire the shares in view of anticipated developments, which, it is said, will affect the stock favorably. What this expected good fortune is to be, has not been given out, but the fact is that large blocks of the stocks were . taken at advancing quotations, the last price being the highest of the day, and showing an advance of 3 per cent, on the final sales of Tuesday. Sugar was freely sold during the early dealings and broke to 78%c. The moving influence was of course the tariff, which, it is claimed, gives the German refiners an undue advantage over the American Sugar Refining Company. There is, however, a well-defined opinion in speculative circles that the stock of the company is being manipulated by insiders with the view of using its depression as an argument that the propsed tariff schedule will work material injury to the home sugar industry. In the late dealings the pressure to sell the shares was less prohouned and under purchases to cover short contracts, a recovery of 14 per cent. took place, limiting the net loss on the day to per cent. Chicago Gas was largely dealt Most of the business was done in the early hours, but the stock was well supported during the afternoon and closed within 4c of the top figures. The buying in St. Paul was mainly for London and it is said that a large number of shares will go to London by Saturday's steamer. The fluctuations were confined within 4 per cent., and the advance was only 1/4 per cent. Western Union suffered early in the day from reports of decreased earnings of the current quarter, and when the statement for the quarter ending with September was published, showing a decrease of nearly \$450,000 for that period, there was a still further reaction, which the declaration of the regular 114 per cent. dividend did not check. The decline from Tuesday at the lowest point touched was 1 per cent. In the late dealings the fact that no mention was made of depressing earnings for that quarter was used to rally the shares 30 per cent. Chicago, Burlington & Quincy rose % per cent. on good buying during the morning, but the closing sales showed a reaction of 1/2 per cent. The dealings in the rest of the list were on a very small scale, and except in a few cases the changes on the day's transactions were but slight. They were, however, mainly in the direction of higher values, including an advance of 2% in rubber preferred, 2 in American Tchacco preferred and Chicago Junction and Oil preferred: 13 in Edison Electric; I in Eric preferred, and 2 per cent, in Manhattan. Cordage preferred shows a decline of 61/4 per cent. The railway and miscellaneous bond market was fairly active and strong throughout the entire day, the principal changes being: Advances-Erie consol gold sevens, 3; Erie consol gold seconds, 25; Rock Isi-

and the same remark will apply to Commission row. In prices, as a rule, a steady tone prevails. Sugars and coffees, which were unsettled last week and weak, are ruling steadier. Fancy groceries are moving more freely. Canned goods are not in much demand as yet. Poultry is unusually low in price for this season of the year, but the large receipts indicate that there is to be but little improvement to the market in the near future. It is impossible to buy a medium quality apple at less than \$4 per barrel and more are selling at \$5 per barrel than at the former figure. Oranges, pine apples and bananas are in good supply and selling low. The same remark will apply to vegetables. The local grain market seems to have

got into a groove from which it is hard to extricate it. Going back for weeks it will be found that the bids on 'Change have varied but little from day to day, large or small receipts cutting no figure. More interest will needs be shown by members of the Board of Trade if it is expected to hold up the reputation of this city. Track bids yesterday ruled as fol-

Creamed oysters on toast make a good hot dish for supper or luncheon. Drain one pint of oysters from their liquor, adding one-half cupful of cold water, as the liquor is too thick to drain off thoroughly without thinning. After draining the liquor, heat it to the boiling point, then skim it and add the oysters. Cook them until the edges curl. then take them out of the liquor. While the oysters are cooking make a cream sauce by rubbing together one tablespoonful small slices of well-browned toast in the oyster liquor, add the oysters to the cream sauce, and let them heat through, then pour both oysters and sauce over the toast. Serve on a hot plate. To prevent a scum from rising on sauces that cannot be used at once, set them over hot water. Oyster Pie.-Line a deep pie dish with puff paste. Turn into it sufficient oysters

o just fill the dish, add one tablespoonful of butter cut into little bits; one teaspoonful of salt and half a teaspoonful of pepper. Cover with an upper crust, and bake in a quick oven for about thirty minutes. Puff Paste.-Wash half a pound of butter thoroughly in cold water and lay it on a cake of ice. Put half a pound of flour into a large meat dish and make a well in the center. In this well put a piece of butter the size of an egg, half a teaspoonful of salt, half a teaspoonful of sugar, half the white of one egg, and begin to add gradually half a cup of ice water while working in gradually the flour. Knead this dough until it is elastic, then cut the lumps in half and roll each half out into a thin sheet. Dry the remaining quantity of butter and place it on one of the sheets, dust over thickly with flour and cover with the other sheet Pound lightly and roll from you. Fold turn and roll from you again, and stand aside for fifteen minutes. Fold, turn and roll again, and do this eight times. Then stand away carefully over night and it will be ready for use the next morning. Fruit Cake.-The following receipt was sent to the New York Herald by a descendant of a lady whe, a hundred years ago, served it at her first Thanksgiving dinner: Beat together until creamed a pound of butter and one of sugar; add ten eggs, yelks and whites beaten separately, one pound of flour, one pound of citron chopped or shredded and floured, five pounds of raisins, stoned and floured, and three pounds of currants, picked, washed, dried and floured After these are all well mixed, add half a teacupful of molasses and a gill of brandy, or of milk if you object to using brandyand I do assure you the cake is quite as good without it. It is best to add spices to

It may be baked in one or two loaves in the following manner: Put three bricks into the oven and let them remain until dried and heated through; stand the cake pans on these, place pans around the sides and back, and a perforated pan over the top; bake three hours.

After an Inning by Chicago Bears the Market Turned About.

Conditions More Favorable for Corn and Oats, Which Scored Small Gains-Provisions Closed Firm.

CHICAGO, Dec. 13. — Good buying, presumably by shorts, and light Northwestern receipts held wheat firm to-day, and May closed at yesterday's last figure. Oats and corn each scored a gain of 1/3c and provis-Leather-Oak sole, 28@38c; hemlock sole, ions recovered from an early break.

The wheat market opened quiet at yesterday's closing figures. It was dealt out, however, in larger quantities than could be immediately cared for, and declined 1/2c. The weevil story was again circulated without much apparent effect, but the Liverpool market was quoted 4d lower for futures, and the bears ruled the pit for a ery, 25@29c; Pennsylvania creamery prints, time. Minneapolis and Duluth receipts were light, and this started prices up 27c; Pennsylvania and near by, 27c. Cheese again. The cars received at the two points named amounted to but 395, against 752 on the corresponding day last year. The price recovered slowly, and had reached the opening figure when Bradstreets' visible was reported. That showed an increase of 1,064,000 bu east of the Rockies and an increase west of 261,000 bu, as compared with an increase of 5,542,000 bu on both coasts on the corresponding week of last year. The market took a tumble following the statement, but the decline was only momentary and prices soon advanced. Linn, Ream, Pardridge, Cudahy and Nat Jones have been accumulating lines of short wheat, and although they were still sellers this morning, some of the buying during the day could not be accounted for, and some supposed it was to get back short wheat without attracting attention. This had much to do with the firmness of the market. May opened at 67%c, sold off 14c, gained %c, lost 4c, sold up %c, lost %c, advanced 4c and reacted %c to close where Business in corn was not heavy, but the market showed an undertone of firmness. The Iowa crop report indicated a produc-tion of about 40,000,000 bu less than the deductions made from the government estimates of acreage and yield, and that was one of the influences which helped the bulls. May opened unchanged at 39%c, and after selling up %c, reacted %c and rallied %c, to close at 40%c.

Oats opened with an easier feeling, but the strength in wheat and Bradstreets' report showing a decrease in the visible supply of oats caused a reaction, and the market firmed up. May opened unchanged at 30%c, and after losing %c advanced %c, to close at 31%c. The provision market was a choppy one. Heavy hog receipts gave prices an early tumble, but good buying later caused a re-action. As compared with last night, January pork is 10c higher, January lard .021/2c higher and January ribs unchanged. The Erle is reported to have reduced its rate on flour and grain to New York to 171/2c per hundred pounds.

Estimated receipts to-morrow are: Wheat, 90 cars; corn. 290 cars; oats, 175 cars; hogs, 33,000. Leading futures ranged as follows: Open- High- Low- Clos-

It may be stated that in

comparison with this enemy all other afflictions of the farmer are insignificant, and if it gets beyond control of its present location it will entail millions of dollars loss, as well as bring ruin to thousands. It is slowly moving in this direction, and if preventive measures are to be taken there is no time to lose .- Philadelphia Rec-

## THE UNION TRUST COMPANY

at No. 68 East Market street. Trust compenies are organizations established by law to fill many functions which heretofore have been assumed by individuals. They are subject to examination by the Auditor of State at least twice a year, and are also under the supervision of the courts in all such capacities as Executor, Guardian, NEW YORK, Dec. 13.-Petroleum firm; Assignee, etc. They are better than individuals in most cases, because they have a perpetual existence, are financially responsible for twice the amount of their capital, unite the combined experience and judgment of many able men, and usually can render more efficient service at a smaller cost, because their business is both systematized and extensive. It is the same principle that prevails in selling goods. The large dealer, by reason of the magnitude of his sales and organization, can sell for result in considerable improvement of business. Print cloths show a firm tone, but are less than the small dealer. He can afford a smaller relative profit. The Union Trust Company will be glad to consult or correspond with anyone wishing to lend money or have trusts of any description handled.
